

## GOAL DEVELOPMENT WORKSHEET:

**Enter the names and prices of each of your products and services then total up on each line what is "realistically possible" for you to make each month selling a "realistic quantity".**

Name of Product / Service:	Realistic Qty to Sell/Mo x Price:	Total Amount:

**Total What's Possible to Sell: \$** \_\_\_\_\_

**Rework the numbers if you need to to make it all total your Need # and it's not reaching that yet (or Want # if you're to that stage). OR what product or service can you ADD to charge MORE so that you can sell less each month instead or have another higher end source of income?**
